Business Design With
Human Design

BUSINESS DESIGN WITH HUMAN DESIGN THE COURSE A BETTER WAY BY DESIGN.

Business Design with Human Design® The Course will help you quickly (and easily) select the perfect business model based off of **your human design**. Create the framework to **transform** your business model...without the wasted time, money and energy, and overwhelm. If you are craving an **individualized approach** that considers *who you are, the strengths you bring to the table and the lifestyle (& freedom) you desire*. You've watched as colleagues who don't have as much expertise as you successfully launch their businesses online, yet you can't seem to get out of your own way to get your program off of the ground. **The Business Design with Human Design The Course is for you.**

- Throw out all the rules on how you "**should**" build a business and *embrace the possibilities*.
- You can build a **life & biz** around who you are. It starts with the foundation of your business...the business model, offer, and role you play in that container.
- Get clear on the nuance of the business models, roles, containers, and offer is best for you based on both *your human design AND the lifestyle you desire*.
- Navigate the **straddle season** with more ease because you know what to expect, the potential pitfalls along the way, and have clarity on what is pulling you forward.
- Discover **by design (& with intention)** the nuance of your natural tendencies through the profiles, types, circuitry, variable, centers and more
- **What's Included** => 9 modules, 6 live calls, community, private podcast and more.
